# GUT MOVING 2025

SPIN & YOGA IN SUPPORT OF DIGESTIVE DISEASES RESEARCH

SATURDAY, JANUARY 18 | 1:30-3:30 PM  
STUDIO THREE | RIVER NORTH  
648 N CLARK STREET | CHICAGO

Established in 1997, the GI Research Foundation's Emerging Leaders Council (ELC) is committed to advancing research to prevent, treat, and cure digestive diseases. Working alongside the Board of Directors, the ELC funds innovative research by supporting a diverse group of physicians and scientists at the early stages of their careers.

More than 70 million Americans live with a digestive disease including Crohn's, ulcerative colitis, irritable bowel syndrome, celiac disease, and gastrointestinal cancers (colorectal, pancreatic, liver, and stomach). Millions of patients struggle with debilitating, and sometimes fatal, consequences. While prevention and treatments are improving, many digestive diseases do not have a cure, YET.

Join us for *Gut Moving* on Saturday, January 18, 2025, at Studio Three in River North. The event will feature spin and yoga classes happening simultaneously, with each class accommodating up to 60 participants. We anticipate a full house. Gastroenterology physicians, researchers, and fellows who have received grants from the Emerging Leaders Council will also be invited, with an estimated total attendance of around 150 people. Sponsors are welcome to host a vendor exhibition table and will receive recognition across our social media platforms, website, and more.
